Did you know ?

- The opening of the **Casino de Monte-Carlo** in 1863 is a story about a man, but above all, though, it is a story about love. In the second half of the nineteenth century, the Principality experienced rapid growth and increasing prosperity with Prince Charles III and François Blanc at the helm. Marie Blanc, the businessman's wife, played a key role in managing and improving Monte-Carlo. From the establishment of the now legendary wine cellars of the **Hotel de Paris Monte-Carlo** and involvement in the Vienna World's Fair to the creation of the Monaco Potteries and the construction of the **Opéra Garnier**, she made an enormous contribution to the Principality's artistic and cultural influence.
- **The Princess Grace suite** and the **Prince Rainier III suite** at the Hotel de Paris Monte-Carlo bear the traces of a remarkable history. Having married right here in this luxury hotel in 1956, the royal couple celebrated their twentieth anniversary in **the hotel's wine cellars**. Today, these two rooms deliver stunning settings overlooking the Mediterranean at the very top of the hotel. They offer the promise of an unforgettable stay. Just as love does...
- *"Every woman is an eternal rose in this world"...* this was undoubtedly the founding maxim behind the **Princess Grace Rose Garden**, opened by Prince Rainier III in 1984 as a tribute to his wife, Grace Kelly. When it came to selecting the most beautiful rosebushes, the Prince's Palace was inundated with hundreds of offers from all over the world. The 315 species were chosen personally by the Sovereign Prince.
- 20,000 vows under the sea... The wedding venue that Mara and Pierre Frola chose was nothing but original. The Monegasque free diver, who holds four world records, and his bride bonded for life at a depth of several metres underwater off the coast of the Principality, as if in a garden in Atlantis, complete with bowls, statues and amphora to create a fairy-tale effect. And to top it all off, the underwater ceremony was held in the presence of a very special witness: H.S.H. Prince Albert II. Pierre Frola has also catered for those who want to explore underwater worlds: thanks to his **Monegasque Marine Academy**, beginner and experienced divers can safely discover and marvel at the region's wonders.
- The scent of romance has been drifting over the Principality for more than half a century. In April 1956, Prince Rainier III married the American actress Grace Kelly, an event that would capture the hearts of some 30 million television viewers and 100,000 visitors during the week-long festivities. Six hundred guests, including celebrities, such as the master of suspense Alfred Hitchcock who served as a witness, and royals were in attendance to celebrate the first royal marriage to be broadcast live on television, a true mark of the era. American families were also able to experience the wedding... with a few days' delay: so that the images could be broadcast by satellite, they were first boxed up and flown to the United States.

■ 4 cultural experiences that cannot be found anywhere else

The Principality is home to some fantastic venues where attending a performance becomes a special and romantic event.

The **Opéra Garnier**, the jewel in the crown of the Casino de Monte-Carlo, is one of them. This red-and-gold Italian theatre built in the Second Empire style, plays host to some of the biggest names in opera. Allow yourself to be carried away by the energy of the sumptuously decorated space. For a truly special evening, try a night at the Opéra de Monte-Carlo, now led by singer Cécilia Bartoli, where Andrew Lloyd Webber's "The Phantom of the Opera" will run from 16 to 31 December 2023! The acclaimed musical, winner of some 70 major awards but never performed in France, is now coming to the Principality for a fortnight of exceptional performances.

Every summer, the famous Monte-Carlo Philharmonic Orchestra relocates its prowess to the heart of the Royal Courtyard at the Prince's Palace, where it stages performances unlike any other. The idea was first born in 1959 and revives an age-old Grimaldi family tradition. The orchestra gathers between the two flights of the seventeenth-century staircase, and the magic is instant. Classical music and the Prince's Palace come together, each enhancing the magnificence of the other...

For a memorable evening, head to the Salle des Princes at the Grimaldi Forum... Thrill to the exceptional quality of a performance by the Ballets de Monte-Carlo. In demand around the world thanks to the works created by the company's director, Jean-Christophe Maillot (Romeo and Juliet, Cinderella, Sleeping Beauty and more), the Ballets de Monte-Carlo will transport you through fascinating imaginary worlds.

In Monaco, the stars are not only to be found on restaurants or in the sky. They also cluster along the Principality's coastline and, every summer, offer entertainment and excitement with the unforgettable concerts of the Monte-Carlo Summer Festival. John Legend, Sting, Enrique Iglesias... the world's biggest stars have been performing at the Salle des Etoiles for years. With the sky on the horizon and the Principality for a backdrop, get ready for a star-studded evening.
